Summary of Sales Comparison Approach The appraiser searched all sales in the subject area that are similar in utility and square footage and sold within the year preceding the date of valuation. All of the comparable sales included are from the subject's immediate market area and although they may not share the same overall appeal and market demand as the subject, these are included due to their overall similar multi family designations. All comparable sales have been given consideration and those included were the most recent and similar sales available for use within this appraisal report. If present, external obsolescence was considered and appropriately adjusted.									

RESTRICTED APPRAISAL REPORT

Assumptions, Limiting Conditions & Scope of Work

File No.: 227W Neck

Property Address: 227 W Neck Rd	City: Huntington	State: NY	Zip Code: 11743
Client: Callegari Law, P.C.	Address:		
Appraiser: Annmarie Giovannello	Address: 26 Railroad Ave, #347, Babylon, NY 11702		

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.
- An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

Under USPAP Standards Rule 2-2(b), this is a Restricted Appraisal Report, and is intended only for the sole use of the named client. There are no other intended users. The client must clearly understand that the appraiser's opinions and conclusions may not be understood properly without additional information in the appraiser's work file.

In developing this appraisal, the appraiser has incorporated only the Sales Comparison Approach. The appraiser has excluded the Cost and Income Approaches to Value, due to being inapplicable given the limited scope of the appraisal. The appraiser has determined that this appraisal process is not so limited that the results of the assignment are no longer credible, and the client agrees that the limited scope of analysis is appropriate given the intended use.

Additional Comments (Scope of Work, Extraordinary Assumptions, Hypothetical Conditions, etc.):

The SOW for this appraisal is that it be a retrospective appraisal. All comparables and market considerations are from the year immediately preceding the date provided by the client which was January 1, 2020.

NOTE: Effective date of this report is retrospective to 01/01/2020 per client, with the interior/exterior inspection done on 09/28/2020.

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.

Additional Certifications:

DEFINITION OF MARKET VALUE *:

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

* This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, 2010.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

CERTIFICATION: The appraiser certifies and agrees that:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Lender/Client	Callegari Law, P.C.					

• GP Restricted : Market - Subject Market Area and Marketability

The boundaries of the subject market area are: Huntington Bay to the north, Pulaski Road to the south, Huntington Country Club to the west, Centerport Road to the east.

Property values in subject neighborhood are stable. Demand/Supply is deemed to be stable. Marketing times are one through four months. Sales and financial concessions are not common.

The appraiser researched the area for sales performance over the period of the 12 months prior to the date of death. The market performance over a 1 year period indicated stable values. This data indicated that the median one family sales price for the year prior was \$740,000.

This data is based upon the overall data published by MSLI & Geodata Plus, for all one family residences throughout the marketplace regardless of size, style, amenities, appeal, etc.

• GP Restricted : Improvements - Comments

At the time of this appraisal inspection, minor issues of deferred maintenance were noted.

However, as explained by the client, some work has been done to the subject over the last nine months and it currently is in much better condition than it was prior to the retrospective date given to the appraiser. The appraiser is going to make the extraordinary assumption that the prior conditions being explained to the appraiser are true and has based the appraisals on that assumption. According to the client, the home was a distressed purchase and from 01/01/2020 and prior, the subject was in need of new windows, new doors, a new roof, the subject needed the wood floors to all be redone, each bath was in need of repairs and updates, the subject needed to be painted throughout, all of the utilities needed updating, etc.

Based on the extraordinary assumption and using those hypothetical conditions, the subject is deemed to be in fair/average overall condition with reasonably modern equipment throughout. The quality of construction is average. The appraiser assumes no liability for structural soundness, electrical, plumbing, or mechanical systems or quality of installations. No personal property is included in this estimate.

Summary of Sales Comparison Approach (continued from main form)

The Comparable Sales used in this report are the best available in support of a market value estimate. All available comparables have been reviewed and reconciled. The initial research resulted in some properties that were not considered the best comparable / substitute properties in similarity to the subject property. The radius and time frames were then expanded and in the expanded search the BEST available similar characteristic comparables were chosen to be reconciled and adjusted accordingly. The comparable properties selected are considered the BEST available and MOST comparable, therefore included and reconciled within this appraisal report. All adjustments are market derived and made for comparable dissimilarities.

Given the MLS listing and exterior inspection, All comps appear to have been in inferior/superior overall condition with less/more extensive updates than the subject. The comps are appropriately adjusted at +/-50,000. **These adjustments were derived based upon conversations with local real estate agents, comparables used and experience in the area.**

The subject and comp #1 & #2 are on a busy road creating an external obsolescence. All other comps are therefore given a -2.5% location adjustment. **These adjustments were derived based upon conversations with local real estate agents, comparables used and experience in the area.**

Based on a historic paired sale analysis the following adjustments were made: \$5,000 per full bathroom, \$2,500 for a half bath, \$6,000 per garage, \$5,000 per Deck/Patio/Porch, \$6,000 for CAC vs. No CAC, \$10,000 for full basement, \$5,000 for a partial basement; \$5,000 for a full basement bath, \$2,500 for a partial basement bath, \$10,000 for a full finished basement and \$5,000 for a partially finished basement, \$12,500 for an In Ground Pool and \$10,000 for a Tennis Court. All other adjustments are self explanatory. The opinion of value falls within the adjusted and unadjusted sales prices of comparables utilized. Common marketplace items such as fences and fireplaces are not given value as there are very common to the marketplace in the subject area and do not appear to affect market value in anything more than a negligible way in the appraisers opinion. These adjustments were derived based upon conversations with local real estate agents, comparables used in the report and experience in the area.

Comparable adjustments are made as warranted when market research deems verifiable, justifiable and credible. GLA was adjusted at \$40 per SF. Site sizes were adjusted at \$1.00 per SF (rounded) for properties under 5 acres.

All other adjustments are per the sales grid.

Intended Client

This report is intended for the client of this appraisal (noted above) and its successor's and/or assigns. This report is not intended for any other users. A third party, upon receipt of a copy of the report as a consequence or from disclosure requirements, does not become a party to the appraiser-client relationship and therefore is not an intended user.

Purpose, Scope and Date of the Appraisal

The scope of the appraisal is to inspect the subject property, consider market characteristics and trends, and to collect and analyze pertinent data in order to develop a conclusion of the subject's estimated value as if the subject were updated & renovated.

The data sources of MLS and public records were utilized in the search for comparable properties. In the event these data sources contain conflicting information, the one considered most reliable is weighted most. Generally, MLS is most reliable for property characteristics and improvement information, and public records are most reliable for recording transaction information.

Statement Relative to the Coronavirus (COVID-19)

COVID-19 has been declared a pandemic by the World Health Organization (WHO) and a national state of emergency is in place. Substantial turmoil has occurred in financial markets and due to the developing situation, it is not possible at this time to quantify its long-term or short-term effects on real estate markets or on the subject property. The value opinion contained in this appraisal is based on findings of an analysis of market data available to the appraiser at the time of the assignment. The reader is cautioned and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

Additionally, due to the current Covid-19 pandemic that is on a national level, an economic effect may affect a listing's number of days on market and ultimately the sales price of properties that are listed for sale. As this is on a national scale, it would be too difficult to quantify the effects on sales prices of houses currently listed. Therefore, this appraisal makes the extraordinary assumption that the Covid-19 pandemic, also referred to as the Coronavirus, may have a negative effect on the value of the subject property at some future point.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

- ☐ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)
- ☒ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being

appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: _____

If the subject were to be realistically priced for sale in the marketplace, estimated marketing/exposure time would be three to six months. (Marketing time is an opinion of the amount of time it might take to sell a property at market value during the period immediately after the effective date of an appraisal. Exposure time is the time prior to the effective date that the subject would have been offered on the market prior to a hypothetical sale at the market value on the effective date of the appraisal.)

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

The subject has not been appraised by this firm in the past 36 months, nor have any related USPAP services been performed on the subject within the past 36 months.
